Educators for the DSI PE-program

DSI Certified professionals are required to complete the Continuing Professional Education program (*PE-program*) annually after admission to a register. This program keeps your knowledge as a professional up to date. You complete this program at one of the accredited educational institutes.

Check in advance with your employer about arrangements

Register for one of the PV programs directly with an educational institute. Always check in advance with your employer whether certain agreements have been made with institutions. This mean you to choose a certain provider.

Select an institution for more information

To attend a PE-program appropriate to your certification, click on one of the institutions below for more informatie. Some programs are offered in English and some in Dutch only.

Educational institutes / DSI Certification	Lindenhaeghe	NIBE-SVV	Dukers & Baelemans	The Ministry of Compliance	CFA	Nederlands Compliance Instituut
